

A Tool-kit Of Techniques To Make Computer Vision Models Easier To Train And Evaluate

Jason Chalom (711985)¹
Supervisor: Dr Richard Klein¹
¹University of the Witwatersrand, South Africa

Introduction

1.

Methodology

Problem Spaces to test:

-

Metrics to Evaluate:

-

Scope of the Experiments

References

[1]

Experiment #1 Preprocessing

Compression of Input Images

-

Experiment #2 System Tuning

Compression of Input Images

-

Experiment #3 Model Tuning
